PLAN. PROJECT. PERFECT.

Big steps. For little feet.

The great outdoors

Exercise, play, fun or simply a place to develop important social skills and all in a safe, shaded environment. Children want to be outdoors – and they should be well protected when they are.

Whether free-standing awning systems, patio awnings or vertical blinds – designer solar protection from markilux offers perfect shade and safety even when the little ones have long since grown up. markilux – the best under the sun. Create the most alluring shade in the world.

Riedenburg nursery

A good plan: more room for children to play in the most alluring shade in the world.

markilux project

 **Outdoors but still protected**
For children, the sun's aggressive rays are particularly harmful. Our awning covers in sunsilk, sunvas and sunbow quality have a UPF of 50+ and therefore lend the highest possible UV protection that textiles can offer.

 **Quality and safety**
50 years of experience, comprehensive quality management combined with competent advice and professional installation on site guarantee you sun protection solutions tailored to your precise and exacting needs.

 **Keeping their value**
Made in Germany – markilux offers efficient solutions for perfect sun and weather protection in the highest quality and which hold their value. Invest now in the future and the safety of your children.
